DETAILED ACTION

Drawings

1. The originally filed drawings were received on 12/27/05. These drawings are acceptable in view of the amendments made below.

Response to Amendment

2. The amendments to the abstract and specification of the disclosure in the submission filed 12/15/09 are acknowledged and accepted. In view of these amendments, the objections to the specification in Sections 6-9 of the Office Action dated 6/16/09 are respectfully withdrawn.
3. The amendments to Claims 14, 16, 19-21, 24 in the submission filed 12/15/09 are acknowledged and accepted.
4. The cancellation of Claims 18, 25-26 in the submission filed 12/15/09 are acknowledged and accepted.
5. In view of the amendments made to the claims above, the objections to the claims in Section 10 of the Office Action dated 6/16/09 are respectfully withdrawn. Further, the 35 U.S.C. 112, 2nd paragraph rejections in Section 12 of the Office Action dated 6/16/09 are respectfully withdrawn.

Art Unit: 2872

Response to Arguments

6. The Applicant's arguments, see in particular Pages 10-12 of the response, filed 12/15/09, with respect to the rejections in Sections 14-15 of the Office Action dated 6/16/09, have been fully considered and are persuasive. The rejections in Sections 14-15 of the Office Action dated 6/16/09 have been withdrawn.

Allowable Subject Matter

7. Claim 14 is allowable. Claims 15-17, 19-21, previously withdrawn from consideration as a result of a restriction requirement, include all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among Inventions I, II, III, IV, V, and VI, as set forth in the Office action mailed on 3/30/09, is hereby withdrawn**, and Claims 15-17, 19-21 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
8. Claims 14-17, 19-24 are allowed.

REASONS FOR ALLOWANCE

9. The following is an examiner's statement of reasons for allowance:

Claim 14 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a correcting device to compensate for perturbations of polarization distribution over a cross section of a light beam in an optical system, as generally set forth in Claim 14, the correcting device including, in combination with the features recited in Claim 14, wherein at least one of the first surface, the further first surface, the second surface, and the further second surface is reprocessed so as to create local thickness variations Δd by which the perturbations of the polarization distribution are compensated at least approximately, and wherein the arrangement, the first and the second thicknesses and birefringence properties of the first and the second correcting elements are selected so that birefringent effects within the correcting member cancel each other out at least approximately, when the local thickness variations Δd are neglected. Claims 15-17, 19-24 are dependent on Claim 14, and hence are allowable for at least the same reasons Claim 14 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2872
